## WORK HISTORY

### Frontend Developer & UI Specialist

#### CodeCraft Solutions – Employee Management System

Freelance | Mar 2025 – May 2025

- Developed a fully responsive and interactive employee management system using React.js and Tailwind CSS
- Implemented task management functionalities including add/edit/delete, filtering by status, and real-time UI updates
- Used localStorage for offline task saving and user data persistence
- Delivered optimized, production-ready code via GitHub and deployed project on Netlify

### Frontend Developer & UI Specialist

#### CodeVerse – Task Dashboard Web App

Freelance | Jan 2025 – Mar 2025

- Designed and built a modern, clean task dashboard with intuitive UI and user-friendly layout
- Added features like dynamic filters, editable tasks, and offline saving using localStorage
- Ensured smooth React component updates and performance optimization
- Project successfully deployed on Netlify, with version control through GitHub

### Frontend Developer & UI Specialist

#### DesignFusion Agency – Startup Landing Page

Freelance | Dec 2024 – Jan 2025

- Created a pixel-perfect, fast-loading landing page using HTML, CSS, and JavaScript
- Integrated animations, modals, and forms to increase user engagement and interactivity
- Performed SEO optimization for better search visibility
- Deployed the live site using Netlify, with codebase managed on GitHub
